

November 10, 2025: Letter to Governor Abbott

I am writing to inform you that my house is being held inside of a constant surveillance state by Donald Trump, President of the United States of America.

I used to represent my area as a Precinct Committee Chair for the Republican Party of Bexar County, Texas.

Now, Donald Trump's team of surveillance 'experts' is engaging in an ongoing 'battle' over the peace of my home.

Generally, the goal each day seems to be that a team of cars drives by my house to disturb us during every single task that we attempt to complete.

We are being held in a state of oppression by a team of criminals because we got involved with the Republican Party of Texas to help America.

Obviously, we no longer support your criminal party and will not be supporting your campaign for governor in 2026.

We hope that you will find these messages to be an accurate reflection of the overall campaign of threats and terrorism that Donald Trump is waging against other citizens of the United States and its government.

The fact that I have written to you numerous times and have received absolutely no answer is very concerning to me.

I am beginning to believe that the entire Republican Party is a co-conspirator in Donald Trump's effort to overthrow the lawful government of the United States of America.

In fact, as I write this message to you, numerous vehicles are passing by my home to instill in me the knowledge the every single movement that I make is being done under the watchful eye of the Terrorist in Chief, Donald John Trump.

Please share this message with the other members of your team so that they can all be aware of the type of administration that you are supporting.

Thank you!

Chris Carlin

Thank You for Contacting the Governor's Office
